ABOUT THE INTERNATIONAL SEMINAR

Since ancient times, people around the world have been engaging themselves in solving day-to-day problems for an easier and more comfortable life through scientific innovations and development. Through the trial-and-error method, scientists are gradually understanding the impact of scientific approaches and development on the environment. Therefore, an eco-friendly and sustainable approach in all fields of science is important to ensure environmental, social, and economic sustainability. Some of the most recent key areas of research for sustainable future include sustainable agriculture, bio-based materials, green chemistry and sustainable

ABOUT THE SEMINAR

Culture has become quintessential dimension of any modern democratic society. Within any other forms of government, the trajectory of culture can be controlled and managed. In democracy cultural aspects can flourish and show the path toward emancipatory politics. If we analyse the global socio-political situation of 19th and 20th century, it was the universal discourse of *freedom* and *class* which were the crucial categories for mobilisation of various sorts. In the last few decades of 20th century, the universal discourse had been challenged by the ‘particularistic cultural narrative’. These transformatory processes not only impacted the historical- political dynamics of that time but also influenced the academic fields of anthropology, economics, literature and philosophy. Revisiting culture to understand the vision of humanities is an unfinished project that needs to be comprehensively examined.

The global trend equally influenced the socio-political trajectory of Indian Politics too. To understand the dynamics of ‘Modern Indian Democracy’ the social processes of Indian Politics need to be located in the historical context in order to get sense of the unfolding events of present juncture. The ‘cultural turn’ throughout the world, particularly in a democratic system is gaining momentum and evolving gradually in new forms. By keeping in mind thinkers from both West and India, this seminar intends to promote complex blend of tradition and modernity with unique historical influences. It is in

this context, this event has four-fold objectives- to understand the transformation from universal to particular i.e. from the discourse of class & freedom to Culture (caste, gender, religion, linguistic, etc). Secondly, in what ways this cultural turn has influenced the operational logic of Indian Democracy? Thirdly, do these new forms of cultural-social categories changed the meaning of Democracy itself in the contemporary period? Lastly, how this cultural turn has resonated with the academic discipline of humanities and social sciences?
